You must read this document before filling out an application.

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

2.2 Australia-Japan Foundation outcomes

The Australia-Japan Foundation seeks to advance Australia's engagement with Japan by supporting people-to-people linkages; amplifying and shifting perceptions of Australia in Japan to reflect contemporary Australia; and facilitating the promotion of the inventive, innovative capabilities that Australia brings to Australia-Japan collaborations across broad and ever sophisticated sectors. The Australia-Japan Foundation also seeks to bring to the fore, awareness of the ongoing vital importance of Australia and Japan on each other's foreign and trade policies by facilitating informed discussions.

The objectives of the Australia-Japan Foundation are:

1. to increase awareness and understanding in Japan of shared interests with Australia;
2. to increase awareness and understanding in Australia of the importance of Japan to Australia as an economic and strategic partner; and
3. to increase recognition in Japan of Australian excellence and expertise.

(AJF Orders in Council, 30 November 2006)

To achieve its objectives, the AJF will prioritise high quality programs particularly, but not exclusively, across any one of the three cross-cutting themes: *youth; gender, diversity and inclusion; and innovation.*

Effective 'public diplomacy' plans are an essential element of projects to maximise the potential of projects to increase mutual understanding and goodwill between the two countries. Public diplomacy means that projects have the capacity to reach out to the public and/or decision-makers in such a way that strengthens Australia's influence and reputation in the bilateral relationship. Good public diplomacy should generate positive and effective media coverage and commentary on the Australia-Japan relationship, and promote a contemporary and positive image of Australia, and support the Australian Government's international policy goals.

Good public diplomacy should also open doors to new areas and to new and sustainable networks between individuals and institutions in the bilateral relationship, and enable partnerships or collaborative activities to emerge or existing ones to deepen.

Projects must demonstrate collaboration between Japanese and Australian partners, including through financial and other (e.g. in-kind) contributions.

Priority Areas (in alphabetical order)

Communication, Information and Advocacy: Projects will promote an accurate and positive image of Australia in Japan, highlight the enduring nature of the bilateral relationship and increase public understanding of the importance of the Australia-Japan relationship in both countries.

Economic Diplomacy and Geopolitics: Projects will facilitate informed discussion among policy-makers, business groups and academic opinion leaders on the importance and potential of the Australia-Japan business, economic and geopolitical relationships to each country. Projects will focus on the following areas:

- Promoting closer economic relations arising from the opportunities of trade agreements and their built-in agendas;

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

- Promoting emerging issues and trends in Australia's trade and investment relationship with Japan;
- Promoting Australian corporate reform capabilities and international business expertise in areas of interest to Japan (for example in project management and private-public partnerships);
- Promoting understanding and public awareness of Australia and Japan's shared contribution to promoting peace and stability in the region and globally; and Australia and Japan's commitment to rules and norms that promote stability, peace and prosperity.

Education and Australian studies: Projects will focus on two areas:

- The promotion of Australia's strong education and training credentials, for example, through alumni engagement and opportunities to provide in-country exposure to Australian education and training capabilities.
- Support for the teaching of Australian studies in Japan and the maintenance and expansion of Japanese academic interest and expertise on Australia.

Proposals for study tours and academic research projects, particularly those that lack a strong communications component, are generally not competitive.

Scientific innovation: Projects will focus on three areas:

- Exchanges between potential Australian and Japanese individual and institutional collaborators and partners in sectors that promote Australian excellence such as in innovation, science, health and technology;
- The promotion of Australian expertise in scientific research, technology and innovation, for example, through alumni engagement and public outreach activities. Projects that engage scientific and technological areas of cooperation between Australia and Japan - but are not wholly or predominantly scientific research - will be eligible for funding.
- Promotion of Australian excellence in sports medicine and other sports-related scientific innovation through exchanges.

Society, Culture and Sport: Projects under this priority will encourage new social and cultural exchange and cooperation initiatives between Australian and Japanese professional, community and other institutions including sport, local government, youth, community and not-for profit groups which highlight Australian excellence and expertise in Japan and enhances mutual understanding, friendship and respect. Projects will promote Australia as a contemporary, creative, successful, diverse and tolerant nation; and an attractive place to work, study, visit and live. Projects will also promote Japan as a highly complementary partner with shared values and interests.

Arts/culture projects would preferably be a collaboration between Australian and Japanese partners and demonstrate innovative ideas and/or approaches conceptually or in its delivery. The individual or organisation must have a proven record of quality and excellence.

Past successful applications from larger cultural festivals were able to demonstrate how their project:

- promoted the Australia-Japan relationship where it was not just an incidental part a much broader international festival promotion

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

- and where AJF funding of the bilateral aspect of the program could be clearly acknowledged to AJF;
- had prospect for promoting the bilateral relationship widely particularly through media; and
- potentially could act as a catalyst for important, new relationships between Australian and Japanese collaborators.

Sports-related projects should promote Australian technical expertise. Past successful sports-related projects looked at building long-term connections, rather than just one-off exchanges.

3. Grant amount

In 2020-21 \$700,000 is available for this grant opportunity, subject to appropriation, starting in July 2020.

Grant applications for a minimum of \$10,000 or maximum of \$40,000 per year and multi-year funding of up to three years will be considered.

Co-contributions from you and other parties strengthen your application.

Funding will also be available for project proposals that can demonstrate potential to strategically shift and advance the Australia-Japan relationship in a worthwhile and sustainable way.

It is anticipated that most grants will be between \$15,000 and \$30,000 per year, depending on the scope of the grant activity and its complexity.

4. Grant eligibility criteria

We cannot consider your application if it does not satisfy all the eligibility criteria.

4.1 Who is eligible to apply for a grant?

To be eligible you must:

- be one of the following entity types:
 - an Australian entity with an Australian Business Number (ABN), Australian Company Number (ACN), or Indigenous Corporation Number (ICN)
 - an Australian consortium with a lead organisation²
 - an Australian registered charity or not-for-profit organisation
 - an Australian local government body
 - an Australian State/Territory government body
 - a corporate Commonwealth entity
 - an Australian statutory authority
 - be an Australian or permanent resident of Australia
 - be a Japanese citizen or organisation
 - be a well-established organisation in Japan with a business purpose to advocate for Australian business, education and/or cultural interests
- and be willing to provide or develop child protection guidelines for your project if it involves people under the age of 18 years.

Applications from consortia are acceptable, provided you have a lead applicant who is the main driver of the project and is eligible as per the list above.

² The Australian Government recognises that some organisations may seek to form consortia in order to apply for a grant under the Program. Consortia are eligible to apply and the relevant conditions applicable to consortia are at 8.6 'Grant Applications from Consortia'

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

Individuals who intend the grant to be administered by a university should apply on behalf of the university, i.e. your university is the applicant.

4.2 Who is not eligible to apply for a grant?

You are not eligible to apply if you are:

- Not an Australian, a permanent resident of Australia or an Australian organisation and you are not a Japanese citizen or organisation.
- A previous applicant who has failed to provide a full and proper acquittal of an earlier IRGP grant.
 - You may provide an interim report with the agreement of the relevant Secretariat where existing grant funding will be expended prior to the commencement of the new grant requested.

5. Eligible grant activities

5.1 What can the grant money be used for?

You must use the grant for the following activities:

- The project outlined within the application.

You can use the grant to pay for costs detailed in your budget and grant agreement, including:

- Economy flights, modest accommodation costs, meals and travel allowances, other transport
- Communication and translation
- Venue hire and catering,
- Advertising and promotion, graphic design, photography and printed material,
- Production costs, including freight and artists' wages
- Only one participant per conference or meeting and only where the participant is a principal speaker and the subject of the conference is of direct relevance to the grant opportunity.

For activities delivered in Australia, applicants are encouraged to consider the use of an Indigenous supplier, if they intend to subcontract any of the services above. A directory of registered Indigenous businesses is available at www.supplynation.org.au.

You can only spend grant funds on eligible grant activities as defined in the grant details in your grant agreement.

5.2 What the grant money cannot be used for?

You cannot normally use the grant for the following:

- capital expenditure, including purchase of real estate and vehicles
- purchase of equipment (for example, musical instruments, computers, videos, photographic or printing equipment)
- the covering of retrospective costs or recurrent funding of activities
- activities which are already commercially viable in their own right
- activities which will provide commercial advantage to the applicant (e.g. promotion of the applicant's own business)
- costs incurred in the preparation of a grant application or related documentation
- subsidy of general ongoing administration of an organisation such as electricity, phone, rent, salaries (including for research assistants or administrative staff), honorariums or administrative charges levied by the applicant's organisation,

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

- activities for which other Commonwealth, State, Territory or Local Government bodies have primary responsibility (e.g. academic research, assistance to business, development assistance projects),
- activities undertaken by primary or high schools, including study tours, where travel by a significant number of students is the principal element of the proposal
- scholarships to individual students, and
- completed projects.

We do not generally fund travel and accommodation for attendance at conferences or meetings, participation in fieldwork or sporting or other events, unless such activities are considered by the Board to be of direct relevance to its objectives. To be considered, a substantial program should exist in the sidelines or around the conference and there should also be a strong argument for the selection of applicant(s).

6. The grant selection process

First we will assess your application against the eligibility criteria. Only eligible applications will move to the next stage. Eligible applications will be considered through an open competitive grant process.

We will then assess your application against the criteria set out below and against other applications. Your application will be considered on its merits, based on:

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

8.8 Further grant opportunities

The Australia-Japan Foundation aims to allocate all grant funding during the annual grants round and is typically over-subscribed with suitable applications each year. If there are not enough suitable applications to meet the program's objectives, the Department of Foreign Affairs and Trade may consider applications received during the financial year, subject to available funding through direct selection or restricted processes. All potential grants will still be considered against the outcomes of the program (and/or criteria in these guidelines) and value for money.

9. Assessment of grant applications

9.1 Who will assess applications?

The Board of the Australia-Japan Foundation will assess each application. Board members are listed on the Australia-Japan Foundation [website](#). Board members are treated as Commonwealth officials due to their role in the assessment process in accordance with Part 1, section 2.8 of the CGRGs and the Public Governance, Performance and Accountability Act.

While an application may meet the assessment criteria, a grant is not guaranteed.

The Australia-Japan Foundation Secretariat, within the Department of Foreign Affairs and Trade, will provide information and advice to the Board to assist its determination of policy and its assessment of grant applications.

The Board may seek additional input from relevant Australian missions overseas about you or your application. They may also seek additional information from other Commonwealth agencies, even if the sources are not nominated by you as referees. The Board may also consider information about you or your application that is available through the normal course of business.

If the selection process identifies unintentional errors in your application, you may be contacted to correct or explain the information.

9.2 Who will approve grants?

The assessment committee will make recommendations to the First Assistant Secretary, North Asia Division, or his/her delegate within the Department of Foreign Affairs and Trade. The delegate will make the final decision to approve a grant.

The delegate's decision is final in all matters, including:

- the approval of the grant
- the grant funding amount to be awarded.

The delegate will not approve funding if they reasonably consider the program funding available will not accommodate the funding offer, and/or the application does not represent value for money.

The Australia-Japan Foundation reserves the right to offer less funding than that sought by the applicant.

There is no appeal mechanism for decisions to approve or not approve a grant.

10. Notification of application outcomes

You will be advised of the outcomes of your application in writing, following a decision by the delegate. If you are successful, you will also be advised about any specific conditions attached to the grant.

If you are unsuccessful, you may submit a new application for the same project (or a similar project) in any future grant opportunity rounds. You may wish to include new or more information to address any weaknesses that may have prevented your previous application from being successful.

10.1 Feedback on your application

If you are unsuccessful, you may ask for feedback from the Department of Foreign Affairs and Trade within one month of being advised of the outcome. The Department of Foreign Affairs and Trade will give verbal feedback within one month of feedback being requested.

11. Successful grant applications

11.1 The grant agreement

If you are successful, you must enter into a legally binding grant agreement with the Commonwealth represented by the Department of Foreign Affairs and Trade. Standard terms and conditions for the grant agreement will apply and cannot be changed. Any additional conditions attached to the grant will be identified in the grant offer or during the grant agreement negotiations.

You will be required to:

- complete a brief communications outline within two weeks of accepting the grant offer,
- provide a final report, including financial acquittal, using the online template within 60 days of project completion,
- for multi-year grants, complete interim reports once a year using the online template, and
- where conference or meeting participation of a principal speaker is funded, a copy of the paper presented by the participant in addition to the report.

The Department of Foreign Affairs and Trade will negotiate agreements with successful applicants by 30 September 2020. If there are unreasonable delays in finalising a grant agreement, the grant offer may be withdrawn and the grant may be awarded to a different applicant.

Where a grantee fails to meet the obligations of the grant agreement, the Department of Foreign Affairs and Trade may withhold or suspend the funding to the grantee; and/or require the grantee to repay all or part of the grant. No compensation is payable by the Department for termination in these circumstances.

You should not make financial commitments until a grant agreement has been executed by the Commonwealth.

11.2 How the grant will be paid

The grant agreement will state the:

- maximum grant amount to be paid.

International Relations Grants Program: Australia-Japan Foundation 2020 Grant Guidelines

We will not exceed the maximum grant amount under any circumstances. If you incur extra eligible expenditure, you must pay it yourself.

We will make an initial payment on execution of the grant agreement and on receipt of a valid invoice. For multi-year grants, we will make subsequent payments, detailed in the grant agreement, progressively based on your interim reports, including acquittals, and receipt of a valid invoice.

All grants are awarded in Australian dollars. However, if you are based in Japan, the payment will be made in Japanese yen up to the equivalent value in Australian dollars. You should allow for the exchange fees in your project budget. You are responsible for any financial differences that may occur from the time of the application submission to when the project takes place, due to fluctuations in the exchange rate.

11.3 Grant agreement variations

We recognise that unexpected events may affect the progress of a project. In these circumstances, you can request a project variation, including:

- changing project milestones consistent with the original intent of the project
- extending the timeframe for completing the project for a reasonable period of time
- changing the allocations across budget items

The program does not allow for:

- an increase to the agreed amount of grant funds

If you want to propose changes to the grant agreement, you must put them in writing before the grant agreement end date. Contact the Australia-Japan Foundation Secretariat for further information. We will not consider changes after the grant agreement end date.

You should not assume that a variation request will be successful. We will consider your request based on factors such as:

- how it affects the project outcome
- consistency with the program policy objective and any relevant policies of the department
- changes to the timing of grant payments
- availability of program funds.

12. Announcement of grants

If successful, your grant will be listed on the website GrantConnect (www.grants.gov.au) and on the Department of Foreign Affairs and Trade website within 21 days of the date of effect³ as required by Section 5.3 of the CGRGs.

13. Delivery of grant activities

13.1 Your responsibilities

You must submit reports in line with the timeframes in the grant agreement. Sample templates for these reports are available on the website. We will expect you to report on:
