

Appendix 9-F-1

SCHEDULE OF THE EUROPEAN UNION

HEADNOTES

1. The Union shall allow the supply of services in its territory by contractual service suppliers or independent professionals of the other Party through the presence of natural persons, in accordance with Articles 9.23 (Contractual service suppliers) and 9.24 (Independent Professionals), for the sectors listed in this Annex and subject to the relevant limitations.
2. The list below is composed of the following elements:
 - (a) the first column indicating the sector or sub-sector for which the category of contractual service suppliers and independent professionals is liberalised; and
 - (b) the second column describing the applicable limitations.
3. In addition to the list of commitments in this Annex, the Union may adopt or maintain a measure relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Articles 9.23 (Contractual service suppliers) and 9.24 (Independent professionals). Such measures may include, in particular, the need to obtain a licence, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, or may include any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.
4. The Union do not undertake any commitment for contractual service suppliers and independent professionals in sectors which are not listed in this Annex.
5. In identifying individual sectors and sub-sectors: CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, N° 77, CPC prov., 1991.
6. In the sectors where economic needs tests are applied, their main criteria will be the assessment of the relevant market situation in the Member State or the region where the service is to be provided, including with respect to the number of, and the impact on, services suppliers who are already supplying a service when the assessment is made.
7. For greater certainty, for the Union, the obligation to grant national treatment does not entail the requirement to extend to persons of Australia the treatment granted in a Member State, in application of the Treaty on the Functioning of the European Union, or of any measure adopted

pursuant to that Treaty, including their implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the Union and having their registered office, central administration or principal place of business in the Union.

8. Commitments for contractual service suppliers and independent professionals do not apply in cases where the intent or effect of their temporary presence is to interfere with, or otherwise affect the outcome of, any labour or management dispute or negotiations.

9. All other requirements of the laws and regulations of the Union and its Member States regarding entry, stay, work and social security measures shall continue to apply, including regulations concerning period of stay, minimum wages as well as collective wage agreements, even if not listed below.

13. The permissible length of stay for contractual service suppliers and independent professionals shall be for a cumulative period of 12 months, or for the duration of the contract, whichever is less.

Equivalent qualifications for engineering, scientific and information technologists

14. For the purpose of this Agreement:

- (a) for engineering technologists (CPC 8672 and 8673): completion of an advanced technical qualification, equivalent to at least European Qualification Framework level 5, from an officially recognised higher education provider in engineering and related engineering technologies is considered equivalent to a university degree;
- (b) for scientific technologists (851, 852, 853): completion of an advanced technical qualification, equivalent to at least European Qualification Framework level 5, from an officially recognised higher education provider in natural and physical sciences is considered equivalent to a university degree; and
- (c) for information technologists (CPC 84), completion of an advanced technical qualification, equivalent to at least European Qualification Framework level 5, from an officially recognised higher education provider in the information technologies is considered a qualification equivalent to a university degree.

15. The Union's commitments and limitations for CSS and IP for the sectors listed in paragraph 11 and paragraph 12 are:

Sector or sub-sector	Description of commitments
All sectors	CSS and IP: EU: The entry and temporary stay relates only to the supply of a service which is the subject of the contract and does not confer entitlement to exercise the professional title of the Party where the service is provided. EU: The number of persons covered by the service contract cannot be greater than necessary to fulfil the contract as may be required by the law of the Party where the service is supplied. In AT: Maximum stay shall be for a cumulative period of not more than six months in any 12-month period or for the duration of the contract, whichever is less. In CZ: Maximum stay shall be for a period of not more than 12 consecutive months or for the duration of the contract, whichever is less. IP: EU: Possess, on the date of their application for temporary entry, at least six years professional experience in the relevant activity, a bachelor's degree or higher or a qualification demonstrating knowledge of an equivalent level and the professional qualifications¹.
	Technologists Paragraph 3 (Equivalent qualifications for engineering, scientific and information technologists) applies to the EU with the exception of: AT, DE, ES, LT. In FI: Special knowledge requirement. In LV: Economic needs test for engineering technologists (CPC 8672 and 8673).

¹ Where the degree or qualification has not been obtained in the Party where the service is supplied, that Party may evaluate whether this is equivalent to a university degree required in its territory. To the extent that such an evaluation involves the recognition of professional qualifications, it shall be consistent with the terms of any mutual recognition of professional qualifications established pursuant to Section E (Regulatory framework) of Chapter 9 (Investment liberalisation and trade in services). The equivalent qualifications for engineering, scientific and information technologists set out in paragraph 14 shall apply for the purposes of assessing such equivalence, subject to the reservations set out in this Appendix.
