I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 May 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to [s 22\(1\)\(a\)\(ii\) @dfat.gov.au](mailto:s22(1)(a)(ii)@dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

RE: s 33(a)(iii)

On the reverse side of this letter is a copy of your driving record and the resulting demerit points that you have incurred over the three year period preceding the most currently recorded offence.

You may be aware that Section 18 of the *Road Transport (Driver Licensing) Act 1999* provides that when the holder of a Full Driver Licence or National Heavy Vehicle incurs a total of 12 to 15 demerit points within a 3 year period ending on the day when the person last committed an offence for which demerit points have been recorded, the Road Transport Authority shall suspend that person's licence for a period of 3 months, unless the person chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

If 16 to 19 demerit points are incurred over 3 years, a 4 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months. If 20 or more demerit points are incurred over 3 years, a 5 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months

You will notice that your current total of demerit points indicates that the recording of another offence could result in you incurring 12 or more demerit points.

The loss of a driver licence can be very inconvenient and may even result in the loss of income for motorists who drive as an occupation. The purpose of this letter is to give you the opportunity to ensure that no further points are incurred which would result in the loss of your licence.

If you require any further information regarding this matter please contact the Licence Area by phoning 13 22 81.

RE: s 33(a)(iii)

On the reverse side of this letter is a copy of your driving record and the resulting demerit points that you have incurred over the three year period preceding the most currently recorded offence.

You may be aware that Section 18 of the *Road Transport (Driver Licensing) Act 1999* provides that when the holder of a Full Driver Licence or National Heavy Vehicle incurs a total of 12 to 15 demerit points within a 3 year period ending on the day when the person last committed an offence for which demerit points have been recorded, the Road Transport Authority shall suspend that person's licence for a period of 3 months, unless the person chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

If 16 to 19 demerit points are incurred over 3 years, a 4 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months. If 20 or more demerit points are incurred over 3 years, a 5 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months

You will notice that your current total of demerit points indicates that the recording of another offence could result in you incurring 12 or more demerit points.

The loss of a driver licence can be very inconvenient and may even result in the loss of income for motorists who drive as an occupation. The purpose of this letter is to give you the opportunity to ensure that no further points are incurred which would result in the loss of your licence.

If you require any further information regarding this matter please contact the Licence Area by phoning 13 22 81.

s 33(a)(iii)

I am writing regarding the advice I have received from the Road Transport Authority ACT concerning the attached demerit-warning letter for s 33(a)(iii) accredited to the Embassy of the United States of America.

The Road Transport Authority advises that s 33(a)(iii) incurred a total of 8 demerit points on the following dates 27/01/2020, 20/07/2020, 29/10/2020, 01/11/2020, 07/04/2021, 10/01/2022 and 17/01/2022. The Authority advises that if s 33(a)(iii) incurs further offences, bringing the total to 12 to 15 demerit points within a 3 year period, s 33(a)(iii) licence will be suspended.

As you are aware, road safety is a matter of significant community concern in Australia. I seek your cooperation in counselling s 33(a)(iii) about s 33(a)(iii) responsibilities while driving in Australia. I would also appreciate if you could remind other staff and dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

Yours sincerely

On the reverse side of this letter is a copy of your driving record and the resulting demerit points that you have incurred over the three year period preceding the most currently recorded offence.

You may be aware that Section 18 of the *Road Transport (Driver Licensing) Act 1999* provides that when the holder of a Full Driver Licence or National Heavy Vehicle incurs a total of 12 to 15 demerit points within a 3 year period ending on the day when the person last committed an offence for which demerit points have been recorded, the Road Transport Authority shall suspend that person's licence for a period of 3 months, unless the person chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

If 16 to 19 demerit points are incurred over 3 years, a 4 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months. If 20 or more demerit points are incurred over 3 years, a 5 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months

You will notice that your current total of demerit points indicates that the recording of another offence could result in you incurring 12 or more demerit points.

The loss of a driver licence can be very inconvenient and may even result in the loss of income for motorists who drive as an occupation. The purpose of this letter is to give you the opportunity to ensure that no further points are incurred which would result in the loss of your licence.

If you require any further information regarding this matter please contact the Licence Area by phoning 13 22 81.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 May 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to

s 22(1)(a)(ii) @dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

6 Pindari Crescent
O'Malley ACT 2606

s 33(a)(iii)

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 May 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to

s 22(1)(a)(ii) [@dfat.gov.au](mailto:dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 May 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to @dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

s 33(a)(iii)

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 May 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to @dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I am very keen to work with you to bring your mission's outstanding fines to zero. This is particularly the case given your mission has by far the largest accrued debt of any mission in the ACT. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to s 22(1)(a)(ii) dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to [s 22\(1\)\(a\)\(ii\) @dfat.gov.au](mailto:s22(1)(a)(ii)@dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I am very keen to work with you to bring your mission's outstanding fines to zero. This is particularly the case given your mission has by far the largest accrued debt of any mission in the ACT. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to s 22(1)(a)(ii) 2dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

Good morning s 22(1)(a)(ii)

Thank you for your email.

The information from Access Canberra is outdated as the Embassy cleared the fine on 02 December 2022. A copy of the invoice is attached for your reference and record. The due was cleared as soon as it was brought to our attention last month. It happened last year when the Ambassador was using a rental car and the company failed to share the notice with us.

Request you to please confirm with Access Canberra and let us know if their record still shows the due as unpaid.

Have a good day ahead.

Best regards,

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to

s 22(1)(a)(ii) dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for significant community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to [@dfat.gov.au](mailto:dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

s 22(1)(a)(ii)

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for significant community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 December 2022. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to @dfat.gov.au and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

RE:

On the reverse side of this letter is a copy of your driving record and the resulting demerit points that you have incurred over the three year period preceding the most currently recorded offence.

You may be aware that Section 18 of the *Road Transport (Driver Licensing) Act 1999* provides that when the holder of a Full Driver Licence or National Heavy Vehicle incurs a total of 12 to 15 demerit points within a 3 year period ending on the day when the person last committed an offence for which demerit points have been recorded, the Road Transport Authority shall suspend that person's licence for a period of 3 months, unless the person chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

If 16 to 19 demerit points are incurred over 3 years, a 4 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months. If 20 or more demerit points are incurred over 3 years, a 5 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months

You will notice that your current total of demerit points indicates that the recording of another offence could result in you incurring 12 or more demerit points.

The loss of a driver licence can be very inconvenient and may even result in the loss of income for motorists who drive as an occupation. The purpose of this letter is to give you the opportunity to ensure that no further points are incurred which would result in the loss of your licence.

If you require any further information regarding this matter please contact the Licence Area by phoning 13 22 81.

If 16 to 19 demerit points are incurred over 3 years, a 4 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months. If 20 or more demerit points are incurred over 3 years, a 5 month licence suspension applies, unless the person chooses the option of a Good Behaviour Period of 12 months

You will notice that your current total of demerit points indicates that the recording of another offence could result in you incurring 12 or more demerit points.

The loss of a driver licence can be very inconvenient and may even result in the loss of income for motorists who drive as an occupation. The purpose of this letter is to give you the opportunity to ensure that no further points are incurred which would result in the loss of your licence.

s 33(a)(iii)

I am writing regarding the attached advice I have received from the Road Transport Authority ACT concerning the suspension of the Full Driver Licence recorded in the name of **s 33(a)(iii)**, accredited to the Royal Embassy of Saudi Arabia. I am sure you will agree this does raise some concerning issues.

The Road Transport Authority advises that **s 33(a)(iii)** driver's licence will be suspended due to the 14 demerit points incurred on 25/03/2022, 04/04/2022, 10/04/2022, 14/04/2022, 11/06/2023 and 18/10/2023. Unless **s 33(a)(iii)** chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension, **s 33(a)(iii)** licence will be suspended on 29/12/2023 for a period of three months.

In the event **s 33(a)(iii)** has not chosen the option of a Good Behaviour Period, I seek your cooperation in counselling **s 33(a)(iii)** against continuing to drive while **s 33(a)(iii)** licence is suspended. If **s 33(a)(iii)** is found driving while **s 33(a)(iii)** licence is suspended, this would raise serious questions about **s 33(a)(iii)** suitability to remain in Australia.

As you are aware, road safety is a matter of significant community concern in Australia. I seek your cooperation in counselling **s 33(a)(iii)** about **s 33(a)(iii)** responsibilities. I would also appreciate if you could remind other Embassy staff and dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

RE:

Section 18 of the *Road Transport (Driver Licensing) Act 1999* provides that when the holder of a Full Driver Licence or National Heavy Vehicle Driver Licence incurs a total of 12 to 15 demerit points within a 3 year period ending on the day when the person last committed an offence for which demerit points have been recorded, the Road Transport Authority shall send a written notice to the licensee advising that the licence will be suspended for a period of 3 months unless the licensee chooses the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

The demerit points you have incurred for the offences endorsed on your driving record over the 3 year period are shown on the attached page. Your demerit points total indicates that you have incurred 12 to 15 demerit points during this 3 year period.

Accordingly your Full Driver Licence or National Heavy Vehicle Driver Licence will be suspended for a period of 3 months commencing on 29/12/2023, unless you choose the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

You are not eligible to apply for, or be issued with a Restricted Licence in the ACT while your licence is suspended.

As a holder of a Full Driver Licence or National Heavy Vehicle Driver Licence you have a choice between 2 options:

1. Good Behaviour Period of 12 months

You may choose the option of a Good Behaviour Period of 12 months as an alternative to the licence suspension.

You should complete a Good Behaviour Election form at an Access Canberra Service Centre within 28 days of the date of this letter. Visit www.act.gov.au/accessCBR or phone 13 22 81 for Service Centre locations and opening times. The 12 month Good Behaviour Period begins on the day when your licence would have been suspended – on 29/12/2023. You may also choose a Good Behaviour Period of 12 months after your licence suspension has commenced. In this situation the 12 month Good Behaviour Period begins on the date of approval and any period of licence suspension served will stand.

Please note that if you elect a Good Behaviour Period of 12 months then incur 2 or more demerit points during that Good Behaviour Period, your Full or National Heavy Vehicle Driver Licence will be suspended for 6 months.

2. 3 month Licence Suspension

You may elect to accept a 3 month licence suspension, during which you may not drive a motor vehicle. After this period the previously held licence will be re-issued.

If you do not apply for a Good Behaviour Period by 29/12/2023 the Road Transport Authority will suspend your licence for a period of 3 months commencing on 29/12/2023.

Regulation 76 of the *Road Transport (Driver Licensing) Regulations 2000* provides that you must surrender your current Full or National Heavy Vehicle Driver Licence to the Road Transport Authority as soon as possible after it has been suspended. Licences may be surrendered to an Access Canberra Service Centre. Visit www.act.gov.au/accessCBR or phone 13 22 81 for Service Centre locations and opening times.

Please note that it is an offence under Section 32 of the *Road Transport (Driver Licensing) Act 1999* to drive a motor vehicle while your licence is suspended.

On the first working day after the end of your 3 month suspension period you may attend an Access Canberra Service Centre to have your licence re-issued.

If you wish to dispute the validity of the traffic offences recorded against you on the attached statement, please contact the Chief Police Officer by phoning 13 22 81.

DEAKIN ACT 2600

s 33(a)(iii)

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 November 2023. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to s 22(1)(a)(ii) [@dfat.gov.au](mailto:dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for significant community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

Yours sincerely

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 November 2023. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to s 22(1)(a)(ii) [@dfat.gov.au](mailto:dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for signification community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

s 33(a)(iii)

I am writing regarding outstanding traffic infringements incurred in the ACT by vehicles registered to your mission or mission staff.

The attached itemised report from Access Canberra shows your mission's position as at 2 November 2023. I would be grateful for your efforts to bring your mission's outstanding fines to zero. If the driver of a vehicle incurring any infringement has departed Australia, kindly provide details to s 22(1)(a)(ii) [@dfat.gov.au](mailto:dfat.gov.au) and we will assist you to seek a withdrawal of relevant fines through Access Canberra. You will be aware that any request for the disposal or transfer of a diplomatic plated vehicle will only be granted once outstanding infringement notices have been accounted for.

We encourage missions and their staff to avoid traffic infringements and pay any fines incurred promptly. As you are aware, road safety is a matter for significant community concern in Australia. We would also appreciate if you could remind staff and their dependants of their responsibility under Article 41.1 of the Vienna Convention on Diplomatic Relations to respect Australia's laws and regulations.

I also note that under freedom of information laws, if formally requested by any non-government entity, the Australian Government may be legally required to release copies of any reports and correspondence relating to diplomatic mission's traffic infringements and unpaid fines to the public, including the media.

Yours sincerely
