

Production, processing or consumption of Schedule 2 chemicals
- Permit Application / Renewal Form
- Notification Form

Chemical Weapons (Prohibition) Act 1994 - sections 17(1), 20(1), 29(1)

PLEASE READ THE GUIDE TO THIS FORM BEFORE COMPLETING IT

Application / Notification for calendar year:

Section A. Company or organisation operating facility (ASNO reference:)

	current information (this column for ASNO use only)	correct or update if necessary
1. Name and principal place of business		
2. Postal address		
3. Contact		
4. Title		
5.	tel: fax:	tel: fax:

Section B. Facility (plant site) (ASNO site code :)

	current information	correct or update if necessary
6. Name		
7. Street address (sufficient to uniquely identify the site)		
8. Contact		
9. Title		
10.	tel: fax:	tel: fax:
11. Site location co-ordinates	Latitude: ° / ' / " S Longitude: ° / ' / " E	Latitude: deg/min/sec ° / ' / " S Longitude: deg/min/sec ° / ' / " E
12. Number of relevant plants at the site		

Section C. Details of a declarable plant producing, processing or consuming Schedule 2 chemicals

COPY THIS PAGE IF MORE THAN ONE SCHEDULE 2 PLANT IS TO BE DECLARED AT THE SITE

Plant Site code[†] :Plant code[†]:

	current information	correct or update if necessary
13. Plant name		
14. Location within site : (include any building or structure number)		
15. Schedule 2 chemicals are / were :		☐ produced ☐ processed ☐ consumed
16. Other activities at the plant	<i>with the Schedule 2 chemical:</i> <i>otherwise:</i>	<i>with the Schedule 2 chemical:</i> ☐ production ☐ processing ☐ storage ☐ consumption ☐ research / development ☐ re-packaging, distribution other : _____
17. Main products		
18. Plant function		☐ dedicated ☐ multi-purpose

19. If one or more schedule 2 chemicals are/were produced, processed or consumed at the plant, estimate the annual production capacity for each chemical* :

CAS number of chemical	production capacity (tonnes)	calculation method
		☐ nameplate* ☐ design*
		☐ nameplate ☐ design

[†] Plant site and plant codes are issued by ASNO.

* Notes: 19. *Nameplate capacity* is production output for the declared plant, under conditions optimised for maximum quantity for a production facility, as demonstrated by one or more test runs. *Design capacity* is the corresponding theoretically calculated product output.

Section D. Details of anticipated activities at each plant with Schedule 2 chemicals for the calendar year for which the permit is sought

USE ONE COPY OF THIS PAGE FOR EACH SCHEDULE 2 CHEMICAL THAT IS TO BE PRODUCED, PROCESSED OR CONSUMED AT EACH PLANT

20. Plant name :	ASNO code:
------------------	------------

21. Details of Schedule 2 chemical:

chemical name	CAS number	concentration by weight in product
		%
trade name of the chemical or product :		

22. Estimate the quantity of the Schedule 2 chemical product to be produced, processed, or consumed at the plant. Include also an estimate of the variation that is reasonably possible. If possible, indicate the anticipated time period(s) in which the activity will take place (eg. June- July) :

	Quantity	+/-	anticipated time period(s) for activity
production :	kg	%	
processing :	kg	%	
consumption :	kg	%	

If the form is being completed as a notification, and not a permit application, go to question 27 :

23. If the Schedule 2 chemical is to be processed or consumed at the plant, specify the product type:

--

24. If the Schedule 2 chemical (or a product containing it) is to be exported from the site, specify the importing countries, and indicate the typical concentration of the chemical in the product :

countries:
concentration : %

25. If the Schedule 2 chemical (or a product containing it) is to be sold or transferred within Australia, specify the type of recipient, indicate the typical concentration of the Schedule 2 chemical in the product, and (if known) indicate the final product types :

☐ other industry ☐ trader ☐ other :	concentration : %
final product types:	

26. Specify any other purpose for which the Schedule 2 chemical will be produced, processed or consumed:

--

Section E. Confidentiality

27. If there is any information in this form which you believe requires particular protection (eg. because unauthorised disclosure could harm your business interests), describe that information against the appropriate classification :

classification	current information	correct or update if necessary
OPCW - Restricted		
OPCW - Protected		
OPCW - Highly Protected		

Note: The *Chemical Weapons (Prohibition) Act* prescribes penalties for the provision of false or misleading information.
