Part 3: South East Asia

Know what's shaping the global trading landscape and where the opportunities are.

To assist exporters navigate the year ahead and identify export hot-spots, the Department of Foreign Affairs and Trade, Austrade and the Export Council of Australia have partnered to present *Global Market Insights*.

This series of seminars will provide up-to-date assessment of international markets – identifying the risks and prospects. It will look at the economic and political conditions, growing sectors of demand, and alternative market opportunities across the globe.

Each briefing session will bring together experts to provide clarity on the current trading landscape and foresights for that international market. Discussions will cover topics from recent trade agreements to new Government initiatives, including economic strategies and trade priorities.
