### **KEY INFORMATION**

Company founded: 2019

Number of employees: 20

Location: Barnawartha, Victoria

Additional information: [justbiodiesel.com.au](http://justbiodiesel.com.au)

### **Just Biodiesel Pty Ltd**

The biodiesel production facility at Barnawartha, Victoria, recommenced production in June 2019 under the ownership of its new operators, Just Biodiesel Pty Ltd. The plant had remained idle in the care of receivers since 2016.

The locally operated business commenced trading convinced that business viability could be achieved by tapping into the high demand for mandated renewable fuel in global markets, including the UK.

The Barnawartha plant is a world class facility that converts tallow and used cooking oil into biodiesel able to meet all global standards. Interest from the UK has been strong. Since October 2019, 10 million litres of biodiesel has been exported to the EU region.

The implementation of the UK FTA will enable Just Biodiesel to competitively supply biodiesel into the UK market.
