# Department of Foreign Affairs and Trade NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

# 7.4 Administered - Fair Value Measurements

The following tables provide an analysis of administered assets and liabilities measured at fair value. The remaining assets and liabilities disclosed in the Schedule of Administered Assets and Liabilities do not apply the fair value hierarchy. See Note 7.2: Fair Value Measurements for an overview of the different levels of the fair value hierarchy and techniques and inputs used to determine fair value.

There have been no transfers between levels during the year (2016: nil). DFAT's policy for determining when transfers between levels are deemed to have occurred can be found in Note 7.2: Fair Value Measurements.

#### Fair value measurements - highest and best use differs from current use for non-financial assets

DFAT's Administered assets are held for operational purposes and not held for the purposes of deriving a profit. The current use of all controlled assets is considered their highest and best use.

1. There have been no changes to valuation techniques used.

2. There were no significant inter-relationships between unobservable inputs that materially affect fair value.

3. The future economic benefits of DFAT's assets are not primarily dependent on their ability to generate cash flows. DFAT has not disclosed quantitative information about the significant unobservable inputs for the department's assets.
