3.2 Non-Financial Assets

Note 3.2A: Reconciliation of the Opening and Closing Balances of Property, Plant and Equipment and Intangibles

Reconciliation of the opening and closing balances for 2018

	Land \$'000	Buildings \$'000	Plant and equipment \$'000	Computer software ¹ \$'000	Total \$'000
As at 1 July 2017					
Gross book value	1,662,056	1,545,056	393,871	197,424	3,798,407
Accumulated depreciation and amortisation	-	(74,292)	(87,581)	(78,529)	(240,402)
Total as at 1 July 2017	1,662,056	1,470,764	306,290	118,895	3,558,005
Additions:					
Purchase	2,327	72,780	58,076	2,791	135,974
Internally developed	-	-	-	17,730	17,730
Revaluations and impairments recognised in other comprehensive income	158,737	70,025	(7,305)	-	221,457
Depreciation and amortisation expense	-	(95,583)	(64,806)	(26,766)	(187,155)
Other movements					
Asset reclassification	-	(2,873)	(4,710)	7,583	-
Disposals	(1,950)	(2,013)	(6,650)	(99)	(10,712)
Total as at 30 June 2018	1,821,170	1,513,100	280,895	120,134	3,735,299
Net book value as of 30 June 2018 represented by:					
Gross book value	1,821,170	1,638,843	334,015	218,703	4,012,731
Accumulated depreciation and amortisation	-	(125,743)	(53,120)	(98,569)	(277,432)
Total	1,821,170	1,513,100	280,895	120,134	3,735,299

1. The carrying amount of computer software included \$20.539m purchased software and \$99.595m internally generated software.

No indicators of impairment were identified for property, plant and equipment, and intangibles.

Department of Foreign Affairs and Trade

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

Revaluations of non-financial assets

All revaluations were conducted in accordance with the revaluation policy stated at Note 7.2: Fair Value Measurements. Land and buildings managed by the Overseas Property Office were independently valued by Colliers International Valuation and Advisory Services (CIVAS) as at 30 June 2018. In accordance with DFAT's 3-year revaluation plan, ICT assets were independently re-valued as at 30 June 2018 by Jones Lang Lasalle (JLL).

There is a revaluation increment of \$158.737m for land (2017: increment of \$62.970m), an increment of \$70.025m for buildings (2017: decrement of \$25.412m) and a decrement of \$7.305m for plant and equipment (ICT assets) (2017: increment of \$0.849m for plant and equipment – works of art) which were recorded in the asset revaluation surplus.

Contractual Commitments for the Acquisition of Property, Plant, Equipment and Intangible Assets

DFAT has a number of contractual commitments in place for the purchase and / or development of buildings, leasehold improvements and intangible assets, aged as follows:

	2018 (\$'000)	2017 (\$'000)
Within 1 year	44,887	42,276
Between 1 to 5 years	4,559	7,513
More than 5 years	-	-
Total commitments	49,446	49,789

The majority of these commitments relate to contracts in place for the development, refurbishment and upgrade of properties in DFAT's diplomatic network, and are managed through the Overseas Property Office.

Commitments are GST / VAT inclusive where relevant. Total GST / VAT included in the total contractual commitments for the purchase and / or development of buildings, leasehold improvements and intangible assets in 2018: \$0.182m (2017: \$0.186m).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

Accounting Policy

Non-financial assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken.

Non-financial assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition, unless acquired as a consequence of restructuring of administrative arrangements. In the latter case, assets are initially recognised as contributions by owners at the amounts at which they were recognised in the transferor's accounts immediately prior to the restructuring.

Asset Recognition Threshold

Purchases of property, plant and equipment are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than \$5,000 (2017: \$5,000), which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'make good' provisions in property leases taken up by DFAT where there exists an obligation to restore the property to its original condition on termination of the lease. These costs are included in the value of DFAT's leasehold improvements with a corresponding provision for the 'make good' disclosed in Note 3.4A: Other Provisions.

Depreciation

Depreciable property, plant and equipment assets are written-down to their estimated residual values over their estimated useful lives to DFAT using, in all cases, the straight-line method of depreciation. Depreciation and amortisation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following typical useful lives:

Asset Class	2018	2017
Buildings	Based on remaining useful life	Based on remaining useful life
Leasehold Improvements	Lesser of lease term or up to 15 years	Lesser of lease term or up to 15 years
Plant and Equipment (other than Works of Art)	3 to 25 years	3 to 25 years
Plant and Equipment (Works of Art)	100 years	100 years

Revaluations

Following initial recognition at cost, property, plant and equipment are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure the carrying amount of assets did not differ materially from the assets' fair value as at the reporting date. The regularity of independent valuations depends upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation surplus except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus / deficit. Revaluation decrements for a class of assets are recognised directly in the surplus / deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the re-valued amount. Assets held overseas are valued in local currencies and translated into Australian dollars at the exchange rates current at revaluation date.

De-recognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

Department of Foreign Affairs and Trade

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

Impairment

All assets were assessed for impairment at 30 June 2018. Where indications of impairment existed, the asset's recoverable amount was estimated and an impairment adjustment made if the asset's recoverable amount was less than its carrying amount.

The recoverable amount of any asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if DFAT were deprived of the asset, its value in use is taken to be its depreciated replacement cost.

Intangibles

DFAT's intangibles comprise purchased and internally developed software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful life of DFAT's software is 5 to 10 years (2017: 5 to 10 years).

All software assets were assessed for indications of impairment as at 30 June 2018.

Accounting Judgements and Estimates

Restrictions on Title

Due to the diplomatic nature of the overseas property portfolio, some properties have restrictions on title. Restrictions on title vary depending on local Government rules and regulations, such as long term title that prohibits the Commonwealth of Australia from profiting from sale of land. Whilst the effect of restrictions on some titles can be quantified, there are others that cannot, such as those titles held in limited or unsophisticated markets. As part of the valuation process, consideration is given to the restrictions on title.

Assets Under Construction

Assets under construction (AUC) are recorded at acquisition cost. They include expenditure to date on various capital projects carried as AUC. AUC projects are reviewed annually for indicators of impairment and all tangible AUC older than 12 months prior to the reporting date are externally revalued to fair value. Intangible AUC is reviewed through an internal monthly process. Prior to rollout into service, the accumulated AUC balance is reviewed to ensure accurate capitalisation of built or purchased assets.

Department of Foreign Affairs and Trade
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

	2018	2017
	\$'000	\$'000
<u>Note 3.2B: Inventories</u>		
Inventories held for sale		
Finished goods	<u>46,383</u>	47,118
Total inventories	<u>46,383</u>	47,118

During 2018, \$46.104m of inventory held for sale was recognised as an expense (2017: \$42.991m).

Accounting policy

Inventories held for sale are valued at cost. Costs incurred in bringing each item of inventory to its present location and condition include the cost of direct materials and labour plus attributable costs that can be allocated on a reasonable basis.

Note 3.2C: Assets Held for Sale

Land	-	98,459
Buildings	<u>-</u>	7,864
Total assets held for sale	<u>-</u>	106,323

The land and buildings held for sale in the previous financial year, above, relate to properties held in Jakarta and Bangkok, which have been sold and new properties have been constructed in replacement.

Accounting policy

Non-current assets are classified as held for sale if the carrying amount is to be recovered principally through a sale transaction rather than through continuing use. On classification as held for sale, the asset is measured at the lower of its carrying amount and fair value less costs to sell. Any write down to fair value less costs to sell is recognised as an impairment loss. Assets which have been classified as held for sale are no longer subject to depreciation or amortisation.

Note 3.2D: Other Non-Financial Assets

Property prepayments	28,381	29,106
Other prepayments	<u>37,877</u>	30,809
Total other non-financial assets	<u>66,258</u>	59,915

No indicators of impairment were identified for other non-financial assets (2017: nil).
