INDICATIVE QUESTIONS

- Are partner organisations facilitating capacity development?
- Are youth demonstrating leadership?
- Are villagers improving their health-related behaviours?

DEVELOPMENT EFFECTIVENESS

Paris/Accra

Ownership: Supporting priorities and outcomes identified by the partner country and local partners; helping to build partner capacity to exercise leadership.

Alignment: Aligns with partner government and Australian government priorities; uses country systems, including government budget and accounting mechanisms and procurement systems where possible; align with partners' capacity development objectives and strategies.

Harmonisation: Coordination of programs within existing systems; work collaboratively through joint strategies where possible.

Managing for results: Designs are outcomes-focused and flexible to suit local context; participatory planning and review methodologies are used to improve decision-making; monitoring and evaluation frameworks in place with a manageable number of indicators.

Mutual accountability: Provide timely and transparent information on budgets; joint assessment of mutual progress.
