Dear Sir/Madam,

I am writing to offer Navitas' support for Canada's participation in the Trans-Pacific Partnership (TPP) Trade Agreement.

Navitas is a leading Australian global education provider, delivering pre-university and university programs to more than 20,000 mostly international students enrolled in 30 colleges across 7 countries. Navitas also provides English language courses to more than 20,000 students in Australia, creative media education to more than 9,000 students globally and corporate training services to more than 10,000 clients per year as well as student recruitment, migrant education and settlement services. Navitas listed on the ASX in 2004 and is now a Top 200 Company.

Navitas has operated in Canada since 2006 providing high quality pathway programs colleges in partnership with leading Canadian universities to international students; helping them to succeed in mainstream university and significantly improving their career and life opportunities.

Fraser International College, in partnership with Simon Fraser University in Burnaby, British Columbia, has been operational since 2006. International College Manitoba, in partnership with the University of Manitoba in Winnipeg, Manitoba, has been operational since 2008.

In the years since we founded our colleges in Canada we have enjoyed strong relations with our partner universities and the many Canadians we frequently interact with. I believe that our partnerships have added value to both Australia and Canada as we facilitate the attainment of higher education across borders.

Canada is similar to Australia on many important issues such as education, social development, regional development and trade and we would see value in Canada being included in TPP Trade Agreement to enhance bilateral trade and mutual prosperity.

Please do not hesitate to contact me if you require any further information.

Sincerely

A handwritten signature in blue ink, appearing to read "Rod Jones". The signature is fluid and cursive, with a large loop at the end.
